

13,977 Babies!

That's the record at Craig's Gallery for the past ten years.

What do you think of that for experience in making baby pictures? It requires peculiar talents to deal successfully with such an army of little folks, and it is the pleased parents of this host who have given Craig the title of

The Baby Charmer.

Bring the little ones to Craig, he loves them all, and they know it.

MARIETTA COLLEGE

Opened its Doors for the Winter Term Tuesday.

The winter term of the College commenced at 11 o'clock Tuesday Chapel was the first exercise. For some time before the bell rang the campus presented a lively appearance. Groups of students were scattered about talking and exchanging greetings and welcoming new students. The number of new faces who looked inquiringly about was greater than it has been for several years past. In fact there seemed to be nearly as many new students as old. The President conducted chapel exercises and at the conclusion made a short address to the students about what he supposed was upper-

most in their minds, the attempt upon President McKinley's life. This he said was but the outcropping of an evil which no one could tell the extent of. Coming as it does in a land where the ruler is elected by the people and is the servant of them, it shows a lack of the Christian Spirit upon which our institutions are founded.

The President then pointed out the way to overcome this evil by education and enlightenment, and he further said that the purpose of the student was to fit himself for the work the country required as demonstrated by this evil.

After giving the students the usual warning that punishments were inflicted for the good of the student and not for the pleasure of the faculty, the professors made announcements and the students were then dismissed to look after their books, and the work of the year was begun.

FIRE

Destroyed B. & O. Property in Belpre.

The huge glare that lighted the sky so that it could be seen for miles, last night, was caused by a conflagration in the stock yards of the B. & O. S-W. in Belpre. The fire burned the big three story barn at the west end of the yards and five or six sheds adjoining, together with a considerable amount of hay. The timber in the buildings was very dry and the fire looked very large at a distance. The loss will amount to a few hundred dollars for the B. & O. S-W. R. R. The fire is supposed to have been started by several tramps who were seen hanging about there early in the evening.

Collins--Dye.
